OBJECT : ACCREDITATION OF THE SARDINIAN PROVISIONAL GOVERNMENT

Mr. Secretary- General, Lords Presidents,
this Movimentu de Liberatzioni Natzionali Sardu (MLNS) founded the 31 August 2011 according to the norms of international law, has now embarked on the legitimate path of the liberation of the Nation Sarda illegal from occupation and illegitimate state foreign colonialist and racist Italian and to date has completed the first two of three phases of its operational program .

The first phase .

The claim of the right to self-determination of the Sardinian people planned and governed by international law has been exercised by the Sardinian people through the " complaint of occupation, colonization and domination of the nation Sarda by the Italian foreign state - claim of sovereignty of the People Sardo " (copy enclosed) was notified to the Italian foreign occupier and deposited at your headquarters in Geneva on 04.06.2012 by this MLNS .

To date no formal disavowal of their complaint was never notified to MLNS by your esteemed

Organization , from any third State and even the Italian Government itself . The formality of the claim is therefore of law is completed and perfected by the absence of any formal act of opposition manifested .

The second phase .

The right to liberate the Homeland from the occupying Italian foreign state is legitimate because it conforms to the rules of international law which involve:

- that only a people can claim this right, and the People Sardo is recognized for that
- that only one of the subjects required by rules of international law can act in such a place in the name and on behalf of an entire people , and Movimentu de Liberatzioni Natzionali Sardu of the so formed is equal to the States and the Insurgents and he did
- that there is a need to break free from colonial domination , by a racist regime or foreign occupation , and all three of these conditions are reflected even today because repeatedly carried out by the Italian foreign occupier .

And ' historically recognized the responsibility of the international community at that time regarding the forced military annexation of the territories of the Nation Sarda by the Kingdom of Savoy who occupied Sardinia ignoring the provisions of the Treaty of London of 1720.

It 's definitely not valid granting of the " perfect fusion " approved by the King of Sardinia, Carlo Alberto , with Regio Ticket December 20, 1847 , which did not follow any popular consultation through plebiscite , as will happen in the other Italian states in view of the unit 1861, clearly breaking the wording of those Treaties and , mainly , without the vote of the three Stamenti Sardinian single body responsible for resolution of this international issue .

There is also to consider the fact that even if there had been a favorable vote of three Stamenti Sardinian this would be considered null and void because none of that organ was represented nationalities of Sardinia.

Today, after the MLNS filed a " complaint of occupation, colonization and domination " of our Sardinian home by the Italian foreign state , that responsibility rests more on the UNU for the perpetuation and the repetition of serious violations of civil rights and politicians of the Sardinian people .

Considering that the MLNS with precaution has vainly awaited notification and the formality of any act of manifest resistance , rejection or mere expressions of opposition to the law laid down by the MLNS considered legitimate and claimed second right , so is brought to completion the second phase .

SARDINIAN NATIONAL LIBERATION MOVEMENT

The constitution of MLNS has therefore generated "right" in producing effects that you try not to consider . The attempt to ignore the existence of MLNS tends to deny the legal prerequisite to the source of the MLNS thereto or the right to self-determination under international law , ratified by the foreign state and claimed by the Italian MLNS in the name of the Sardinian People .

The right to self-determination of the Sardinian people , therefore , more precisely for this MLNS the power to exercise it in the forms and in the manner contemplated by the international law.

In those circumstances, in following up the fulfillment of their duties that the MLNS was given against the Fatherland Sarda , remaining with inflexible compliance within the embankments and along the standards of international law, the MLNS established on January 7, 2012 the Provisional Government of the Republic of Sardinia as its institutional apparatus , in line with the provisions of article 96 , paragraph 3 , of the First Geneva Protocol of 1977 , the purpose of managing international relations , ensure the training and the work of a " Constituent " ensure its national security and continuity of basic services to the population and in order to deliver to the Sardinian people full and legitimate restoration of its sovereignty over the territory of the Nation Sarda , lead up to the first free elections.
