SUBJECT: DENOUNCEMENT FOR CRIMES AGAINST HUMANITY AND SUBMISSION TO SLAVERY OF SARDINIAN CITIZENS

I will start by making a few clarifications:

Water is the lifeblood of all basic bio-chemical processes of cellular organisms.

It is a fundamental element of life of all living beings. So water cannot be considered an asset but an essential right to life, without it there would be no life on the planet.

Water has biological value but also an anthropological one; it generates life, determines hygiene and protects us from diseases, it is also a parameter which determines the social decorum, education and well-being.

Access to water is considered a fundamental right and must be guaranteed regardless.

This right must be expressly specified in legislative terms, it is not an alienable right because, if it were to be managed, the management itself would have to be based upon the principle of ensuring this right.

To deny water service is a deed that goes against nature, and separating it from the bio-chemical system of life, becomes a blatantly criminal action, because it deprives the individual of hygiene

and decorum. The concept can be seen as a psychological persecution and submission to slavery.

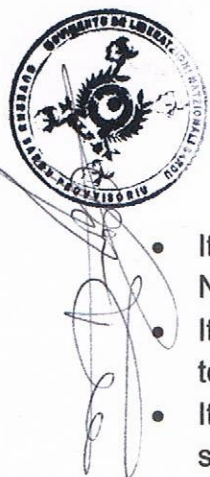

To subtract water means to inhibit healthy family development, to strengthen the incentives to murder-suicide and crime, because without, it life cannot develop.

A developed and civil society cannot deny the right to free access to water for those without means, because it is important to have respect for life, society and families.

It is responsibility of the state to administer and guarantee this right to all citizens, especially to those who are in need, interceding for those who are not able to pay the costs of water services, even limiting the private management of water because it is not a commercial product but an inalienable right of all human beings. A welfare state must take measures to promote work for everybody, to redistribute the wealth, to ensure that all citizens can live with the dignity they deserve and can thus do their part to strengthen the welfare State.

There is water in abundance for all, so we must ensure access and fruition to the underprivileged.

all this considered:

the Company ABBANOIA S.p.A

- It has repeatedly demonstrated, in its management of the water system of The Sardinian Nation, its inability and incompetence of this important social task.
- It has been under investigation by the Italian foreign judicial authorities for offenses related to the management of the S.p.A.
- It has been allegedly guilty of crimes against humanity, as in the case of interruption of supply to users who, according to them, were late in their payments or facing serious economic hardships.
- It has been allegedly accused of psychological persecution against users, and the consequent enslavement caused by depriving them of their right to physical hygiene hence

of their decorum

- It did receive public money to improve services but it used it to pay its debts.
- It did not take as much care, as it should have done, about the management of the water network and was therefore forced to interrupt - for poor maintenance and inefficiency - the public service, hence burdening with improper charges, the cost of water distribution, weighing economically on the utilities.

In view of the above the Movimentu de Liberatzioni Natzionali Sardu (MLNS), as a subject of international law, has repeatedly denounced, warned and challenged the Italian occupying State, notifying it:

- On June 4th 2012 the "DENOUNCING THE UN ITALIAN STATE FOR EMPLOYMENT, DOMINATION AND COLONIZATION OF THE "SARDINIAN NATION", claiming the right of sovereignty of the Sardinia citizens.
- On August 20th 2012 the "MONITION AND WARNING" to the Presidency of the Italian Republic, the Presidency of the Council of Ministers, at its home office and PC the O.N.U. in Geneva
- On November 6th 2013 ACCREDITATION OF "GUVERNU SARDU PROVVISORIU" made by MLNS, in compliance with art. 96.3 of the First Geneva Protocol of 1977, in order to manage international relations
